THE RIGHT TO REFUSE ENTRY

NON-TRANSFERABLE BADGES

NO PETS AND WEAPONS

BUSINESS ATTIRE

Thank you for your cooperation. We wish all attendees a successful and enjoyable experience.

ILDEX PHILIPPINES, CO-LOCATED WITH THE PHILIPPINE POULTRY SHOW, returns for its highly anticipated third edition—and we couldn't be more excited to **welcome you from 27–29 August 2025 at the SMX Convention Center Manila, The Philippines!**

This event is more than just a trade show—it's the meeting point for the entire poultry and livestock value chain across Asia and beyond. This year, we've expanded to **over 8,000 sqm of exhibition space, featuring 200+ leading international and local companies**, and expecting more than **7,500 trade visitors from 30+ countries**. Don't miss the dedicated EU and China Pavilions, which bring global innovation even closer to the region.

Our exhibitor profile includes:

- ◆ 34% Farm Production
- ◆ 32% Animal Health
- ◆ 11% Feed Technology
- ◆ 10% Processing & Handling
- ◆ 8% Feed Ingredients
- ◆ 5% Breeding & Hatching

We are honored to welcome industry leaders such as CLEARWATER FARMING SYSTEM CORP., C-LINES International, EMKA Hatchery Equipment B.V., F-TKO OÜ, Giordano Poultry Plast S.P.A, Grain & Protein Technologies Asia Sdn Bhd, Hubbard S.A.S, Kasetphand Phils. Corp., Kohshin Engineering Co., Ltd, Meyn Food Processing Technology, LUBING Maschinenfabrik GmbH & Co. KG, Ovotherm Asia Pacific Sdn Bhd, SALMET GmbH & Co. KG, SKOV A/S,

TERMOTECNICA PERICOLI SRL, and many more, bringing world-class solutions and innovations to the show floor.

At IDEX Philippines 2025, we're not only focused on business—we're committed to building a better future through **sustainability**. In line with VNU Asia Pacific's green initiatives, we've implemented:

- 100% online registration and business matching—no printed forms onsite
- Reduced print show guide production—go paperless with our E-Show Guide
- Badge return stations—drop your badge before leaving so we can reuse lanyards and holders

These efforts help reduce waste, lower carbon impact, and set a new standard for sustainable exhibitions.

And now, let's add a little fun to the mix! We're excited to introduce our **1st Fellowship Golf Tournament of Philippine Poultry Show & IDEX Philippines**, happening on 26 August 2025 at Riviera Golf and Country Club, Silang, Cavite—a perfect pre-show opportunity for C-level executives and stakeholders to connect. Onsite, be sure to attend our **Opening Ceremony Event** on 27 August at 10am VIP Lounge, Hall 4, SMX Convention Center and join the **Networking Reception Event** from 5.30pm to 8pm to meet peers, partners, and potential collaborators.

So whether you're here to discover new technologies, forge business deals, exchange insights, or simply reconnect with industry friends—ILDEX Philippines 2025 has something for everyone.

Thank you for joining us. Together, let's build a smarter, stronger, and more sustainable poultry and livestock industry.

ENJOY THE SHOW!

Mr. Kevin Zhao

Senior Project Manager, VNU Asia Pacific

Ms. Panadda Kongma

Vice President-Business, VNU Asia Pacific

The Philippine poultry and livestock industry now stands at the crossroads of tradition and innovation. The more often we get updated with advances in animal genetics and disease control to smarter feeding systems and sustainable farming practices, the better we can adapt to the rapidly changing landscape. Let us continue to stay informed and be proactive, as we continuously improve productivity and animal welfare thereby strengthening food security.

Mr. Jose Gerardo T. Feliciano

President, United Broilers Raisers Association
President, Philippine Poultry Show and ILDEX

Philippine Egg Board Association

The Philippine Poultry Show and ILDEX Philippines stands as a testament to the unwavering dedication and resilience of the Philippine poultry industry. This year's event reaffirms our shared commitment to excellence, sustainability, and innovation in poultry farming.

Our gathering is more than just a showcase of products, technologies, and breeds. It is also a platform for collaboration, learning, and inspiration. In the face of the ever-evolving challenges in agriculture and food production, we must continue to adapt and lead with purpose. Let this convention be a spark for new ideas, partnerships, and a deeper understanding of our role in food security and livelihood for the Filipino people.

With you in this vibrant community of professionals and passionate advocates for poultry farming, I thank all our sponsors, exhibitors, speakers, participants, and fellow organizers for making this event a success.

Mabuhay ang Agrikulturang Pilipino!
Best Regards,

Mr. Francis Uyehara
President, Philippine Egg Board Association

A GRACE FILLED ILDEX and POULTRY SHOW!

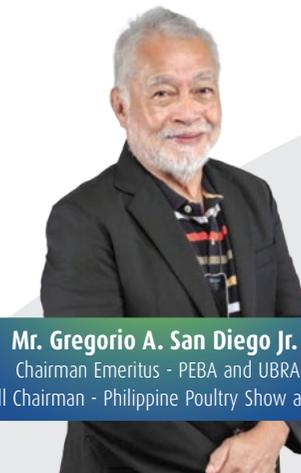

The Philippine Agri Industries including Egg Layer and Broiler Industries together with its Allied Business Partners are at its cross roads, more so with the small and medium players... do we continue growing broilers or just give way to imports? For Egg Layer Farmers, can the small and medium layer farmers compete and survive a business now being invaded by big companies that migrated from Hog and Broiler players tired of fighting imports

to the table egg business which is import proof for now?

Philippines is still an Agricultural Country so local agriculture should be the backbone of our economy as well as our food security. Being contributor to around 30% of our economy, the government should protect and encourage our Agri Sectors.

This coming Poultry Show just like the past Shows is a way showing our government how big the Poultry Industry together with its Allies it is neglecting. It is a huge labor generator as well as a big GDP contributor so let's organize together towards our survival and project a Bigger Voice that our government will hear and take positive action!

MABUHAY ANG MAGSASAKANG FILIPINO!

Mr. Gregorio A. San Diego Jr.

Chairman Emeritus - PEBA and UBRA

Overall Chairman - Philippine Poultry Show and ILDEX

ASSOCIATION PROFILES

The Association of Veterinary and Agri Quality Assurance Laboratories in the Philippines, Inc. (AVAQAL) is a premier professional organization dedicated to bridging the gap between veterinary and agricultural quality assurance laboratories and government agencies. Our vision is to be the leading association that ensures regulatory compliance and excellence in quality control standards across the Philippines.

Founded with the purpose of fostering a collaborative and supportive community, AVAQAL is committed to promoting friendship, knowledge sharing, and professional growth among its members. By creating an environment where innovation and best practices thrive, we aim to contribute significantly to the advancement of veterinary and agricultural sciences in the Philippines.

Our primary objectives include the harmonization of test procedures, establishment of a proficiency testing center, regular collaboration with government agencies, development of risk management programs, provision of accredited technical training, promotion of sustainable practices, and active engagement in community outreach initiatives. Through these efforts, AVAQAL

strives to uphold the highest standards of quality assurance and regulatory compliance within our industry.

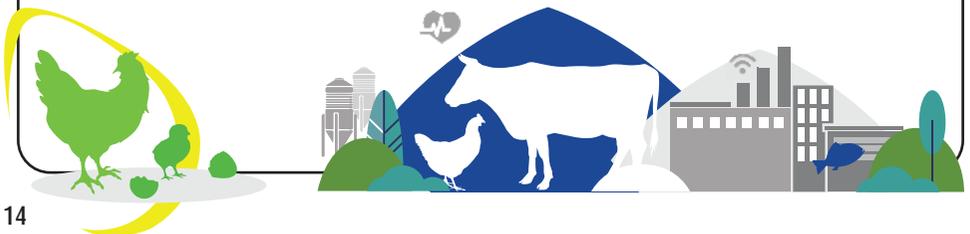

MISSION

The Association of Veterinary and Agri Quality Assurance Laboratories in the Philippines, Inc. (AVAQAL) is dedicated to advancing the standards and practices of veterinary and agricultural quality assurance laboratories. Our mission is to standardize and harmonize test procedures for feeds, veterinary drugs, and vitamin analysis, ensuring consistency, accuracy, and reliability across all member laboratories. We aim to establish a proficiency testing center for macro ingredients of feeds and vitamin premixes to foster continuous improvement and excellence. Additionally, we maintain regular dialogues and partnerships with government agencies to ensure our members are well-informed and compliant with regulatory requirements and quality control standards.

We develop comprehensive risk management programs to safeguard the integrity and reliability of our testing processes and results, and promote eco-friendly, energy-efficient, and waste-reducing practices within our laboratories to contribute to environmental protection and sustainability. Furthermore, we engage in community outreach initiatives to educate and inform the public about the importance of quality assurance in veterinary and agricultural sciences, and support local communities through educational initiatives, workshops, and partnerships. Together, we strive to create a collaborative and innovative environment that promotes professional growth and contributes to the advancement of veterinary and agricultural sciences in the Philippines.

VISION

Our vision is to be the leading association in the Philippines that serves as a vital bridge between veterinary and agricultural quality assurance laboratories and government agencies. We are committed to ensuring regulatory compliance and excellence in quality control standards. By fostering a collaborative and supportive community, we aim to promote friendship, knowledge sharing, and professional growth among our members. We strive to create an environment where innovation and best practices thrive, ultimately contributing to the advancement of veterinary and agricultural sciences in the Philippines. Excellence: We are committed to achieving the highest standards in all aspects of our work, ensuring consistency, accuracy, and reliability in our test procedures and laboratory practices.

ASSOCIATION PROFILES

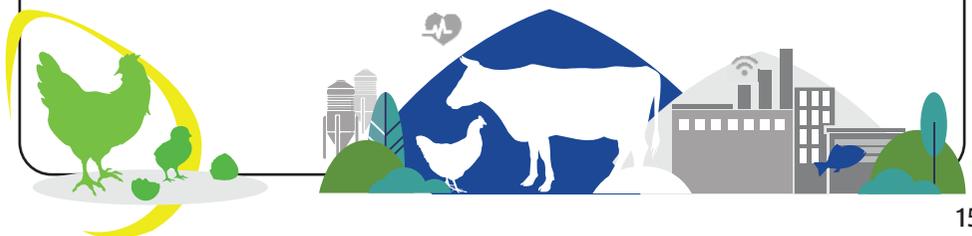

Animal Nutrition Practitioners Association of Batangas (ANPAB)

The Animal Nutrition Practitioners Association of Batangas, often referred to as ANPAB, is one of the leading professional organizations with a strong dedication to animal nutrition. In the course of 30 years, ANPAB continues to pursue holistic advancements in the Philippine Animal Industry. Also, it ensures the provision of proper platforms to share animal science-based knowledge and launch innovative agriculture-related technologies. Lastly, it helps encourage and recruit animal nutrition practitioners and like-individuals to participate in events that would further social cause and provide public benefit.

The organization was established on the first of June 1993 by a group of eight enthusiastic young nutritionists based in region 4A - CALABARZON, specifically in the province of Batangas. The notion of having collective and intellectual discussions about localized animal nutrition, feed formulation, and quality of raw materials was the main catalyst in making the organization come to life.

Over the years, ANPAB has significantly evolved and expanded its scope. It has garnered due recognition and respect as one of the leading organizations that fosters professionalism and promotes competent leadership, and effective management among its members. Additionally, ANPAB is well-regarded for encouraging a strong sense of camaraderie and mutual support within its members and community.

This esteemed organization continues to provide exceptional service in the field of animal nutrition. It remains committed to reaching new heights, adapting to emerging challenges, and striving to exceed expectations with unwavering confidence. ANPAB stands as a testament to its members' dedication and collective effort, who work tirelessly to advance the science and practice of animal nutrition.

ASSOCIATION PROFILES

The Batangas Egg Producers Association, Inc. (BaEPA)

The Batangas Egg Producers Association, Inc. (BaEPA) is a duly registered, non-stock, non-profit organization established on May 22, 2001. It is composed of layer farmers, feed millers, and consultants from Batangas and neighboring provinces. BaEPA is committed in promoting the growth and sustainability of the egg industry in the region while upholding the welfare of its members and the farming community.

Currently, the association has 95 active members and continues to grow as a key player in the agricultural sector.

BaEPA holds regular monthly meetings every 1st Thursday of the month, serving as a platform for information sharing, collaboration, and policy dialogue.

Affiliations

- Affiliated to the National Federation of Egg Producers of the Philippines (NFEPP)
- Member of the Provincial Livestock and Poultry Development Council
- Member of the Technical Working Group (TWG) for Avian Influenza (AI)

Vision

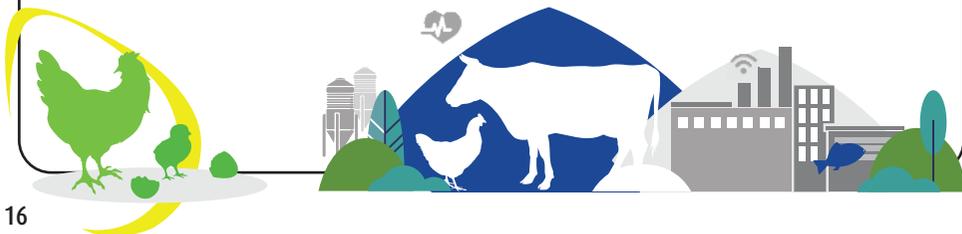

To be a unified and proactive association that leads the growth of the egg industry in Batangas and nearby provinces. Empowering its members, promoting biosecurity and sustainability, and contributing to national food security.

Mission

To promote, develop, and integrate the egg industry through responsible farming practices, policy advocacy, member support, and community engagement.

Core Objectives

- Advance the egg industry in Batangas by fostering sustainable and profitable practices.
- Enhance the welfare of farmers, families, and agribusiness entities in the poultry sector.
- Establish a reliable statistical system for monitoring population and production trends.
- Facilitate access to credit and grant opportunities for members.
- Conduct training programs, field visits, and sponsor scholarships for deserving individuals.
- Provide assistance to members during emergencies and times of need.
- Engage in collaborative actions to protect the industry and promote good governance.

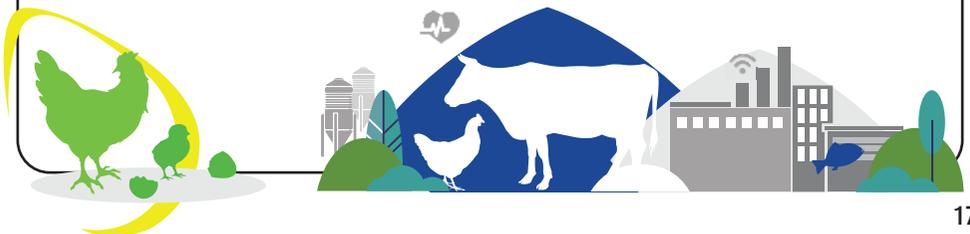

ASSOCIATION PROFILES

Bulacan Egg Producers Association (BEPA)

The Bulacan Egg Producers Association (BEPA) was founded in 1998 with the mission of uniting and supporting poultry layer farmers. The late Mr. Tom Gutierrez served as BEPA's esteemed founder and first president. Our association proudly comprises 45 members (as of the year 2025), primarily located across Bulacan province. We also extend our reach to include members from the Rizal and Pampanga areas, creating a broader community for knowledge sharing and collaboration among egg producers in Central Luzon.

ASSOCIATION PROFILES

The National Federation of Hog Farmers Inc.

The National Federation of Hog Farmers Inc. was established in 1990 as an umbrella organization for hog farmer associations in order to monitor national legislations which may affect the interests of the numerous, multi-faceted players in the industry.

The federation also serves as an avenue where vital statistics on growth performances, market trends, disease incidence and government directions towards protecting the local agri sectors are discussed and shared for optimum benefit of the Filipino people. Prices and volume movements of ingredients are also included.

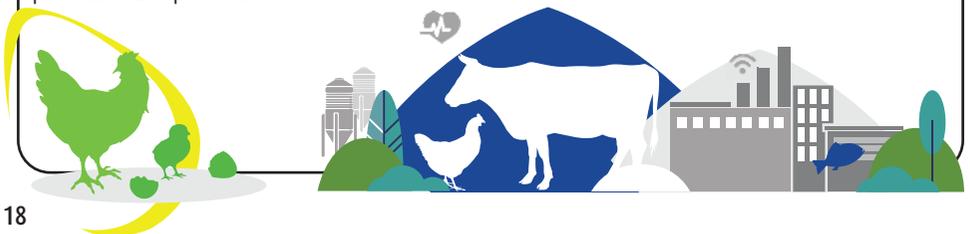

Today, the Federation is now composed of 24 member associations, a total of 663 members from all over the country.

OUR MISSION

To be the Champion and the Voice of the Philippine Hog Industry as it deals with current threats from nonaligned policies, disease challenges and rising inputs and enhances the opportunities for recovery, business growth, viability and prosperity for its members and its backyard neighbors contributing positively to the country's food security, food safety and food sovereignty goals.

OUR VISION

The National Federation of Hog Farmer's Inc.'s vision is to help and empower its members and its fellow backyard farmers to produce safe and affordable pork for the Filipino consumers while embracing the new normal farming practice of growing pigs with modern technology and enhanced bio-security procedures and protocols.

ASSOCIATION PROFILES

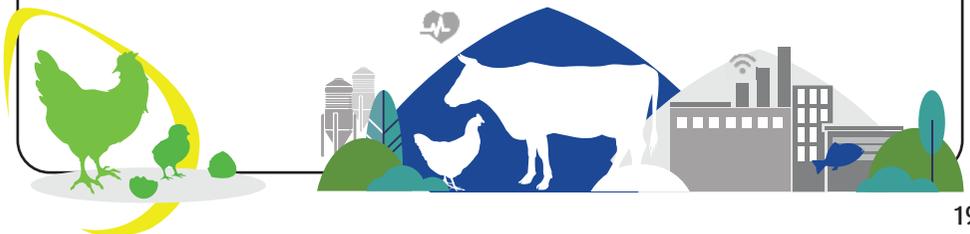

Philippine College Of Poultry Practitioners

OUR MISSION

To contribute to the development of the poultry industry through the promotion of ethical poultry practice by providing an effective forum for the professional veterinary expertise.

OUR VISION

The Philippine College of Poultry Practitioners, Inc. is an organization of poultry veterinarians that advocates the professional advancement of its members and is committed to the upliftment of the Philippine poultry industry.

ASSOCIATION PROFILES

Philippine Association of Breeder Layers, Inc. (PABLI)

Overview:

The Philippine Association of Breeder Layers, Inc. (PABLI) is a specialized organization uniting parent stock layer importers and layer farmers. It acts as a central platform for collaboration on best practices, regulatory advocacy, and sustainable development to strengthen the egg industry's resilience and competitiveness.

History:

Founded to address emerging challenges in poultry genetics and market stability, PABLI has evolved from a small consortium into a leading industry voice. Over the years, it has driven programs and research partnerships, and policy dialogues that set benchmarks for safety in breeder and egg production.

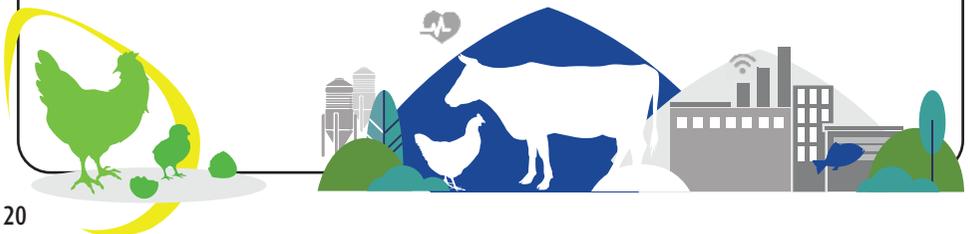

Membership:

Membership to PABLI is open to parent stock importers and enjoy the following:

1. Access to parent stock updates and collective presentation in the Department of Agriculture – Bureau of Animal Industry.
2. Shared resources for disease prevention and technical training through partnerships and collaborations with government agencies and poultry associations.
3. Works closely with breeders and suppliers to stay abreast of global genetic and biosecurity.

Achievements:

1. Contributed to an increase in national egg self-sufficiency over the past years.
2. Provide genetic lines that improve layer farmers' egg production.
3. Help in reducing the incidence of major poultry diseases through collaboration with the government and poultry farmers.

ASSOCIATION PROFILES

Pork Producers Federation Of The Phils, Inc.

The Pork Producers Federation of the Philippines, Inc. (ProPork) is a national organization of commercial and backyard swine raisers and their allied services- funded to protect and promote the varied interests of the country's hog industry.

Founded in 1990, the initial three member associations - which composed the first national hog organization (National Hog Raisers Group, Inc.)- has grown to 42 member associations with 615 commercial and 72,157 backyard swine farm members from various parts of the Philippines. It took on its present name in 2010 to reflect the evolution of the group into an association that serves as a strong link not just among its members but also as a conduit with the other industry stakeholders, whether they be in the public or private sector.

Today, ProPork stays true to its tradition of acting as the voice of hog farmers from all over the country- pushing to ensure the growth, stability and sustainability of its members and the whole swine industry as well as actively contributing to the overall development of the nation.

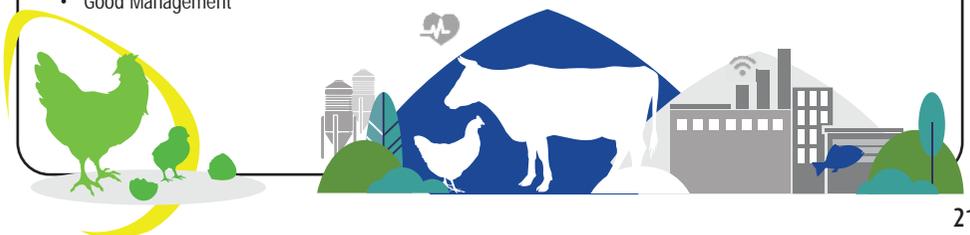

OUR MISSION

- Enhance opportunities for the growth, efficiency, equity and sustainability of its members and the hog industry as a whole.
- Assist in ensuring the country's food security through a stable supply of safe pork products.
- Contribute to the development and progress of the nation's economy.

OUR VISION

ProPork values the major components of successfully running hog farming operations through:

- Good genetics
- Good Feeds/Nutritional program
- Good Housing/Equipment
- Good Animal Health Care Program
- Good Management

ASSOCIATION PROFILES

Philippine Veterinary Drug and Nutrition Association

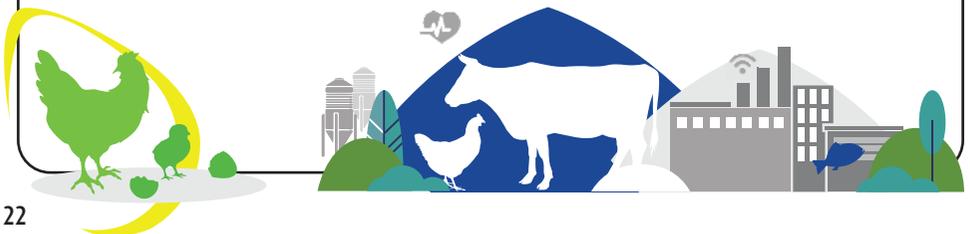

The Philippine Veterinary Drug and Nutrition Association is a recognized umbrella organization of major and local multi-national companies operating in the country as manufacturers, importers and distributors of vital animal health products and offering relevant professional services to all potential clients.

Established in 1960, the Philippine Veterinary Drug and Nutrition Association now renders service to a growing roster of proactive member firms that voluntarily joined the association through a letter of intent and by submission of requirements prescribed under the Philippine Veterinary Drug and Nutrition Association by-laws.

The major aims and objectives of the association are as follows:

1. To encourage its members to maintain constant and steady supply of veterinary drugs and other supplies that are essential in the development of the poultry and livestock industries in the country.
2. To assure its members manufacture, import and sell veterinary drugs and other supplies of proper standard and quality as required by the government, the veterinary and allied professions.
3. To foster relationship and cooperation among its members.
4. To represent its members in different gatherings and discussions on issues related to the veterinary drug industry.

The corporate mission and vision of the Philippine Veterinary Drug and Nutrition Association are all geared to meet challenges and opportunities in the overall global arena of the livestock and poultry industries, including companion animals or pets and other domesticated fauna that are vital bio-diversity and aesthetic needs of the country, its people, and its natural resources for a balance ecosystem.

ASSOCIATION PROFILES

SEAFDEC Aquaculture Department (SEAFDEC/AQD)

SEAFDEC Aquaculture Department (SEAFDEC/AQD) was established in 1973 to conduct research, develop technologies, disseminate information, and train people in the farming of fishes, crustaceans, mollusks, and seaweeds for food, livelihood, equity, and sustainable development.

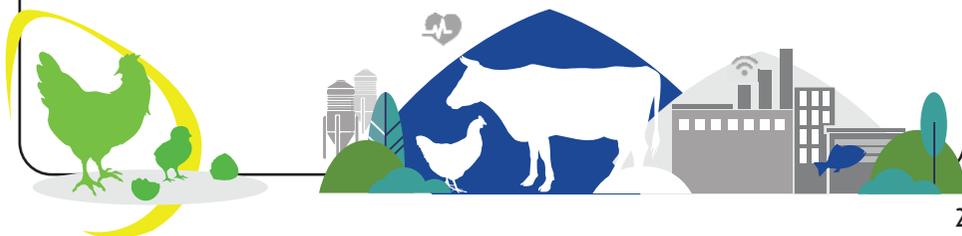

SEAFDEC/AQD is a technical department of the Southeast Asian Fisheries Development Center (SEAFDEC), an inter-governmental treaty organization with member countries composed of Brunei Darussalam, Cambodia, Indonesia, Japan, Lao PDR, Malaysia, Myanmar, Philippines, Singapore, Thailand, and Viet Nam.

SEAFDEC/AQD operates four stations in the Philippines: the Tigbauan Main Station and Dumangas Brackishwater Station in Iloilo, the Igang Marine Station in Guimaras, and Binangonan Freshwater Station in Rizal. A liaison office is located in Quezon City, Metro Manila.

The Philippines, as host, provides SEAFDEC/AQD with the funds for its operations. The Philippine Technical and Administrative Committee (PTAC), a special committee of the Office of the Secretary of the Department of Agriculture, oversees the operations of the organization in coordination with the SEAFDEC Council composed of representatives from its 11 member countries.

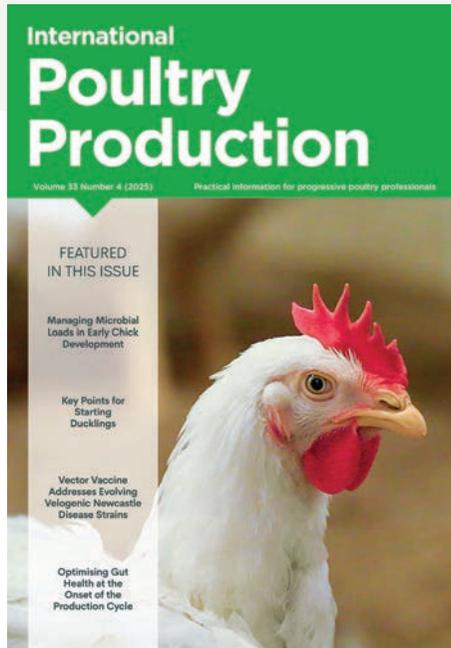

Product lines:

Aquaculture trainings, aquaculture publications, analytical and diagnostic services, hatchery seedstock, aquaculture extension, research collaboration
